Lagermax Logistics Croatia expands warehouse terminal in Luka

++ Hub for Western and Eastern Europe as well as North-South connections ++ Warehouse area expanded to 19,000 sqm ++ 900 sqm office space ++ 50 new employees ++ 38,700 sqm total area ++ Strong increase in goods volume ++ Strengthening of market presence ++

SALZBURG / LUKA (6.02.2023). – On a total area of 38,700 square meters, the Croatian transport and logistics service provider now has 19,000 square meters of storage space, a transshipment hall with 2,000 square meters and a total of 900 square meters of office space. Lagermax Logistics Croatia is thus responding to the continuously increasing volume of goods and is ensuring significantly greater customer satisfaction with a new and improved facility and logistics infrastructure. This expansion step has created an additional 50 jobs in the region.

Luka as a platform for the entire Balkan region

"The expansion of the existing logistics facility was absolutely necessary for us, as the demand for high-quality transport and warehousing solutions for the entire Balkan region is constantly increasing," says Dino Misar, Managing Director of Lagermax Logistics Croatia d.o.o. Luka. In the immediate vicinity of the capital Zagreb, Lagermax Logistics serves as an ideal hub and logistics center for connections between Western and Eastern Europe as well as the North and South. From there, transports between Croatia and Lagermax's own sites in Bosnia-Herzegovina, Serbia and Montenegro are also coordinated.

Lagermax has been operating on the Croatian market for more than two and a half decades and has developed into one of the market leaders in the forwarding, logistics and express service sector. In addition to Luka, Lagermax Logistics Croatia operates five other branches, Split, Osijek, Pula, Koprivnica and Rijeka, which also function as logistics hubs in the Croatian Lagermax network.

The Luka logistics center is directly adjacent to the site of Lagermax Autotransport's foreign branch. The immediate geographical proximity offers perfect synergies between the forwarding and automotive sectors within the Lagermax Group.

Lagermax Logistics Croatia works with long-standing partners/freight companies that use their experience to provide high-quality transport services on a daily basis to ensure nationwide coverage in national distribution.

Facts - Lagermax Group

With 58 own locations in 14 European countries, Austria, the Netherlands, Belgium, Germany, the Czech Republic, Slovakia, Hungary, Romania, Bulgaria, Slovenia, Croatia, Bosnia-Herzegovina, Serbia and Turkey, the Lagermax Group offers a sophisticated distribution network for all customer requirements. Borders are increasingly disappearing, but local characteristics remain. Lagermax pays great attention to this fact. The Lagermax Group generated a total turnover of 545 million euros in 2021 and employs over 3,600 people.
